MEDIA RELEASE – COMMUNITY NOTICE

The Spencers Brook Progress Association welcomed in a new committee at its Annual General Meeting on the 24th October 2024.

Planning a positive way forward, the group also followed the AGM with a well-attended Community Forum announcing a draft Strategic Plan, a new Business Plan and voted in a new Constitution. The new constitution also contains the catchment area to qualify for membership as the farming community is vast and wide. It includes Spencers Brook, Mokine and parts of Muluckine.

Community members attending the Forum, were invited to add their ideas and thoughts for future projects and the whiteboard was soon full of positive ways for change and improvements for the small, but pro-active, Spencers Brook community.

The new committee is also preparing a Restoration and Renovation Plan for the Station Master's House and the remnant railway historical infrastructure dotted around the region. Updates on these and other plans will feature on the interactive new website and new newsletter, both currently underway.

The 2024/2025 committee are:

Chairperson: Annie Kavanagh

Vice Chair: Maria Wiebel-Wilding

Secretary: Marilyn Rulyancich

Treasurer: Lesley-Ann Hoare

Committee Members: Pat Lummis, John Klassek, Bernie Caffrey and Matthew Letch.

The Spencers Brook Progress Association have some exciting events planned for 2025 which will be announced in the New Year. All are welcome to attend.
